

PRESS RELEASE

Cegedim e-business strengthens its position in smart digitization with the acquisition of BSV

And expands its customer base in the French public sector

Boulogne-Billancourt, April 1, 2019

Cegedim e-business, a European expert in B2B process digitalization and digitized data flows, announces the acquisition of **BSV Electronic Publishing**, a leading publisher of invoice digitization solutions for local government in France renowned for the efficiency of its electronic document management (EDM) tool. This acquisition, which follows that of **Ximantix** earlier in 2019 (see [January 30 press release](#)), aims to capitalize on the considerable potential for synergies between the two companies.

With this deal, **Cegedim e-business**, which is currently rolling out its comprehensive digitalization service *SY by Cegedim*, confirms its commitment to innovation, since smart data capture is BSV's core business.

Benoît Neyrac, Sales and Marketing Manager at BSV, comments, "Our dynamic capture tool for all types of data is a key market differentiator. Incorporating it into Cegedim e-business' comprehensive solution for digitizing all types of documents creates more value for our respective customers, both companies and local government authorities."

Technological and business synergies

In the 25 years since it was founded, BSV has carved out a leading position in the French digitization sector and boasts over 500 active customers including Arcelor Mittal, Paris City Hall, Marseille City Hall, SPIE, and Econocom. Its ZeDOC software suite comprises electronic document management—a dynamic data capture tool that sets it apart from conventional EDM based only on document indexing—and automatic document reading and recognition (ADR).

Benoît Garibal, Director of Cegedim e-business, comments, "Clients today face an increasingly rapid pace of digital transformation. By combining our expertise, we offer them a powerful way to simplify their sales and marketing transactions and communications. We are delighted to welcome BSV's teams so they can help us continue to chart our course as a European leader in process and data digitization."

In line with its road map, **Cegedim e-business** remains on the lookout for new growth and innovation opportunities to better serve its clients.

About BSV Electronic Publishing

BSV Electronic Publishing was founded in 1994 and is the publisher of ZeDOC, a software suite offering a range of document digitization and management solutions. BSV specializes in information and content management and has successfully established itself in a pioneering, fast-growth market.
